FROM THE OWNER

To Our Valued Family, Friends and Partners,

This year has been a remarkable journey of transformation and strength. Reflecting on the challenges we've overcome, achievements we have received and the insights we've gained, I'm incredibly proud of how far we've come and energized for what lies ahead. Each experience has strengthened our foundation, both as a company and as a family, and I couldn't be more excited about the future.

At Aqua Creek, we're not just the leading manufacturer of pool access equipment—we're a trusted partner committed to delivering comprehensive, innovative aquatic access solutions with unparalleled service. In a rapidly evolving world of technology and trends, we remain steadfast in upholding timeless values that truly make a difference; quality craftsmanship, trust, and integrity.

A place where a handshake still carries weight.

A place where you'll always reach a live person when you call.

And a place where handcrafted, American-made products continue to set the standard for excellence in our nation's manufacturing industry.

As a small, family-owned and operated company since 2002, we hold tight to values that brought us here.

Carrying on this legacy, the Montana way, is an honor. With big things on the horizon, we sincerely value you, our loyal customers, for your unwavering support throughout this journey.

Sincerely,

Krystal G.

Krystal Guilhemotonia
Owner, CEO

DON'T JUST TAKE IT FROM US...

Aqua Creek is the first manufacturer to offer pool lifts in **virtually any powder coat color you can imagine!** Having the ability to color our lifts to match the décor of aquatic environments or match school colors to help blend into the surroundings has drastically changed the design of aquatics. A pool lift no longer needs to look institutional, or stand out on a pool deck; it can now blend in and be beautiful too!

Bruce Giffin

VP of Sales & Marketing, Aqua Creek Products

Aqua Creek is not merely an industry leader with respect to their ability to provide design professionals the necessary information to specify their product line; Aqua Creek is, in fact, the only company in their industry that is able to coalesce manufacturing excellence with superior client satisfaction and product documentation critical to the needs of design professionals.

Dave Acklin

President, Aqua Design International

“I LOVE MY SPA LIFT! I DON'T KNOW HOW I WOULD MANAGE MY HEALTH WITHOUT IT.”

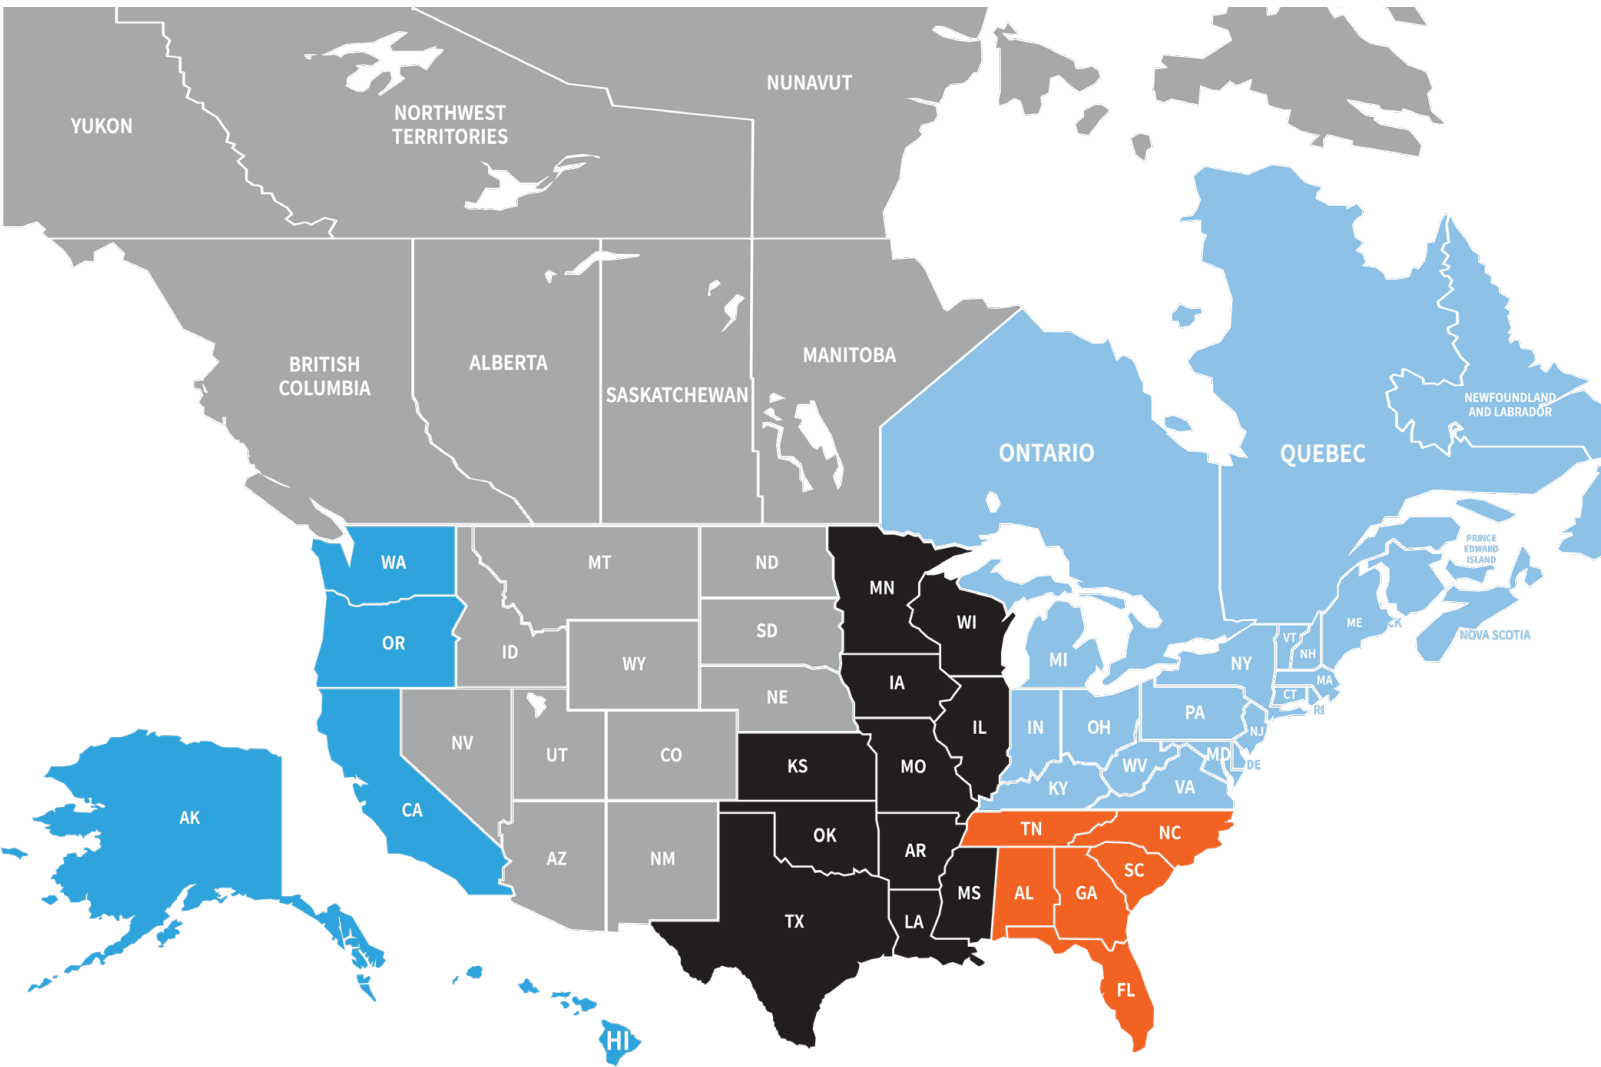

We have been pushing Aqua Creek Products for years now, and that's for good reason. Not only is this easy on us, but also the end-user, with little to NO quality issues! Ease of ordering, personal assistance, and recommendations of products; you name it, they are there to help. I will go as far as switching a customer from another brand whenever I can for all these reasons. Thank you as always!!

PAVER ANCHORS

WOOD DECK ANCHORS

A white, rectangular, perforated metal plate with four circular holes and four mounting brackets. The plate is shown from a perspective view, highlighting its thickness and the arrangement of the holes and brackets. The mounting brackets are positioned at the corners of the plate, and the holes are arranged in a grid pattern. The plate is set against a light blue background.

COMMON PARTS GUIDE

HANDSETS

The image displays two Aqua Creek Products pool lifts. On the left is the Linak model, a tall, narrow unit with a white side panel featuring eight circular mounting holes. A label on the side provides contact information for Aqua Creek Products. On the right is the Vito model, a wider unit with a white front panel. It features a prominent warning label that reads "WARNING! DO NOT CHARGE BATTERY ON POOL LIFT" and the Aqua Creek logo with the text "Aqua Creek Products" and "888-687-7552 | www.aquacreek.com".

The image displays a variety of solar power components from Aqua Creek Products. On the left is a large, silver-colored solar panel with the company logo and contact information. To its right is a white battery charger unit with a digital display and control buttons. Below the charger is a white battery level indicator with a digital display and control buttons. Several black and white cables are connected to the units, and a black power cord is plugged into a white power outlet on the right. The background is a plain white surface.
